MHS FAMILY/STUDENT INTEREST FORM

If a student is interested in an Honors/AP or Dual Enrollment course of which he/she is NOT currently taking, this form must be completed and returned to guidance. If the student is earning a C or above in his/her current Honors/AP course, the student will automatically continue to the next Honors/AP course.

Honors/AP or Dual Enrollment courses are designed to challenge highly motivated students, and to prepare for admission to highly competitive colleges and universities. Completion of summer work may be required for some Honors/AP courses.

Student Name: __________________________________  Current Grade Level: _____________________

Referral being made by (circle one or both):  Student OR  Parent
(if parent, Please Print Parent Name) _______________________________________________________

Please answer each question below:
Why should you/your child be considered for this course?
________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________

What strengths and skills do you/your child have that will help you/your child be successful?
________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________

This request does not mean automatic entrance into the course. A decision will be based on a team’s review of a variety of student data. Students are expected to maintain a C (70%) or higher in any Honors/AP course. If a student’s average falls below a 70%, he/she may be placed on probation. Students who have not achieved 70% or higher by established dates may either be removed from the current course or will not automatically continue with the next course in the program. Review of students for these courses are conducted yearly so if your child does not get accepted this year, they may apply the following year.

Deadline:  March 13th, 2018

Please return this form to the main office.
